

Effortless cleaning

This furnace intended for your nozzles, points, seats, lids cleaning eliminates by carbonization all plastic waste.

Your parts are placed in a removable basket then introduced into the furnace. Electric resistances of strong power work in the surrounding enclosure in convection and brilliance assuring the cleaning.

Evacuation sheath of the gaseous emissions stemming from part treatment placed in the furnace as well as its connecting are of your supply. It is up to you to plan processing of these gaseous emissions (which we ignore nature and volume).

Details

Furnace delivered with an inox basket, 2 mm thickness.

Basket useful dimensions : 650 x 650 x 650 mm

Door fitted with external security.

Automatic locking door with a security switch with a temperature above 80°C.

Technical data

Useful dimensions:

Width: 650 mm

Depth: 650 mm

Height: 650 mm

External dimensions:

Width: 925 mm

Depth: 850 mm

Height: 1245 mm

Construction maximum temperature: 400°C

Operating temperature: 350°C

Heating power: 9 kW

Voltage: 400 V mono

Weight: 140 kg

Regulation is covered by a proportional regulator.

A timer allow to program operating time.
