

Conductive grease - spray

LUBRIHOT 1

Protects parts efficiently against corrosion and oxidation, prevents welding and fretting corrosion and reduces friction. Non toxic, non leaded, resistant to alkaline solutions and acids.

Ref.	Description	Temperature	Volume	€
LUBRIHOT1	Spray	180°C to 1200°C	400 mL	37,30

Conductive grease - paste

LUBRIHOT 2

Protects parts efficiently against corrosion and oxidation, prevents welding and fretting corrosion and reduces friction. Non toxic, non leaded, resistant to alkaline solutions and acids.

Ref.	Description	Temperature	Volume	€
LUBRIHOT2	Paste	180°C to 1200°C	450 g	47,50

Conductive grease - injection dispenser

LUBRIHOT 3

Protects parts efficiently against corrosion and oxidation, prevents welding and fretting corrosion and reduces friction. Non toxic, non leaded, resistant to alkaline solutions and acids.

Ref.	Description	Temperature	Volume	€
LUBRIHOT3	Injection dispenser	180°C to 1200°C	10 g	8,80
